

## **Appendix G - Environmental Policy Statement**

**DFB-POL-05**

### **Introduction**

Dellner Ferrabyrne Ltd designs and manufactures rubber-metal bonded components, systems and assemblies for suspension systems, anti-vibration mounts, rotary couplings, electrical insulators and other products for rail vehicle, road vehicle, electrical, wind energy and industrial markets.

### **Environmental Objectives**

We recognise that all products and services can generate an environmental impact and we are committed to protect the environment, continually improve both our environmental performance and our Environmental Management System as well as understand the effects of, and our impact upon, Climate Change.

We will achieve our environmental objectives by:

- Certification of our Environmental Management System to ISO 14001.
- Complying with all relevant regulatory requirements.
- Preventing pollution.
- Incorporating environmental factors into our business decisions.
- Promotion of the proACTIVE initiative with our customers early in the sales process by offering a standard product and also a more environmentally - considered option.
- Adherence to the Dellner rECOvery Initiative for component parts, energy usage, supplier chain carbon footprint reduction, cost reduction and life cycle responsibility
- Reducing energy, water and other natural resource usage, maximising energy efficiency and reducing emissions. Increasing the use of recycling and reusing of waste.
- Utilising, as much as possible, sustainable sources of materials and reducing the use of materials harmful to the environment.
- Reducing emissions, keeping appropriate records and ensuring that robust emergency measures are in place to deal with accidental emissions.
- The selection of suppliers and sub-contractors considering their environmental credentials. We will encourage our suppliers to implement environmental improvements.
- Dellner Ferrabyrne is a local member of the Dellner Group Sustainability Team.

### **Responsibilities**

Top Management are responsible for implementation of this policy. All employees have a responsibility to ensure the aims and objectives are met in their working areas. The QHSE Manager on site is responsible for managing the Environmental programme at Dellner Ferrabyrne.

Signed- Jeron Cain,  
Managing Director
