

ENVIRONMENTAL POLICY STATEMENT

Dellner Polymer Solutions is committed to conducting its business with respect and care for the environment.

We will fully comply with the relevant legislation and codes of practice that are applicable to our business processes.

To enable us to succeed and achieve this we are committed to the following statements:

- **Reducing the consumption of energy:** We will continually review areas for improvement across the business to help reduce energy consumption.
- **Minimising waste generation:** We will provide where practicable, suitable means for recycling of waste such as cardboard, plastic, metal and wood to prevent our waste going to landfill.
- **Sourcing sustainable raw materials:** We will actively monitor and review our supplier streams to ensure we are buying from sustainable sources.
- **Safe systems and procedures:** We will provide safe working procedures for the handling and storage of chemicals on site, as well as waste disposal and spillage procedure
- **Training:** Where required, we will provide training to employees that have direct involvement to the impact on the environment.
- **Improvement:** We will proactively look for alternative methods and improvements to our systems and procedures to ensure we
